Cluster Processing
User Guide

Cluster generation takes an
_analysis file and produces a –mikeclusters2 file

Program: Warren_wolf_algorithm.py

3. CLUSTER GENERATION

Cluster Generation

- Overview of Cluster Analysis
- MC vs MC2 files
- Execution times
- Run on separate cores
 - Temporary folders can be used to run multiple instances

Running Program

- Copy program to folder containing “_analysis” files
- Open program with IDLE or any program
- Run Module to start program
- Save python output log
